There are many ways for a school to be special. It may have qualified and concerned teachers, outstanding scholastic students, worthwhile clubs and organizations, or a gifted athletic team. Some schools even combine some of these things and become extraordinary. The Pottsville School system, through consistent effort, has achieved this special status.

Maintaining a high standard of excellence hasn't always been easy. Often there is a struggle to meet standards. A dramatic increase in the number of students enrolled this year also caused the need for more teachers and much more space. The administration predicts that if this growth continues, the school will have to be expanded more and more.

But as the school grows, school spirit and pride in Pottsville increase as well. SO WHO SAYS WE CAN'T HAVE IT ALL?!

"I want, I want, I want!" says **Christy Campbell, Cathy Dennis,** and **Brent Chenowith** at the class ring preview.

ISN'T P.H.S. Special

The 1987-88 school year saw many changes occur at P.H.S. **Mr. White's** plans included attempting to put a computer in each classroom and allowing each club and organization perform a service project for the school. The increase in the number of students made it necessary to obtain many more desks and move classrooms to new places, such as the balcony of the gym. The business department received vocational funding this year, which meant that all-new electronic typewriters were added to **Miss Bean's room.** (con't)

I'm glad I got a chance to sign this because there's a lot I want to say. You know I think you are extremely talented and I know you will go very far. Your future is in your hands and your vision will see you through. I know I won't see you again for a long time, but know that you are in my thoughts. I wish you all the luck I can give you. Remember that power rests in the hands of those that choose to wield it. I hope you do choose to, and I hope all the choices you make are right. Make sure they're right for you at the time. Keep it all in mind and if you need someone, just remember that there are people here who care about you very much.

Twist And Shout
Back To School Dance

The first big dance of the year has already come and gone, but it is something that will not be forgotten. For seniors, it was their last Back to School dance to attend, but for the seventh graders it was the first of many.

The music played by the D.J. ranged from country to hard rock to '50 style rock-n-roll. Everyone who attended had a great time and they are looking forward to the next dance.

There are some who boggie
Some who break,
While others are parking
At Pottsville Lake.

But don't park on the dance floor
Mr. White will get mad,
You might think it's fun
But he thinks it's **BAD.**

Angela Bowden danced with both Jeff Nichols and Stephen Daniel to keep them from fighting over her.

Terry Honeycutt and **Mike Allen** show their moves at the Back to School Dance.

Fall Festival

Distinguishing the guys from the girls was very hard at the Fall Festival this year. This was because of the Macho Miss Contest. The guys, dressed in make-up, skirts, and all, were escorted out by the girls, dressed as guys. Then the guys were on their own. First they had to show off their walk. Next they had to prove how calm they could stay by eating Jello blind folded. For the last of the competition they were asked questions that only girls would knew the answer to. After this the judges, Elizabeth Ward, Cindy Lauper, Mother Teresa, and Pee Wee Herman, had to make their decision which was very hard to do, since they were all great. Finally, the decision was made, and **Brenda, Brent, Chenowith** was named Pottsville's Macho Miss. **Racquel, Ray, Wilkinson** was the runner-up. There were many other attractions at the Fall Festival, and all in all it was a big success. Thanks to the Juniors, Juniors' sponsors, and many devoted parents and teachers.

Great Style
Is Shown In Ring And Announcement Selections

"Will you turn my class ring for me" is a popular saying after the Juniors receive their class ring. The old tradition is having your ring turned once for each year of your graduation year. And if you didn't get it turned for all of the years, then you would not graduate. Though most juniors never get their rings turned for all of the years, it is still the thing to do after getting your ring.

Another special thing about class rings is that you get to pick out what you want on the sides of it. This way each ring expresses individualism.

Junior class rings always have a special meaning to each person. **Tami Heflin** said that her class ring was a symbol of all her past years in school and a reminder of all the good and bad times that she has shared with her teachers and classmates.

The style and cost of class rings have changed, but the excitement and special feeling of getting one has not.

Jamie Mackey, Mechelle May, and **Denise Carter** pick out the class rings they like best.

Angie Farmer and **Jackie Mason** discuss what their class rings are going to look like.

Annette Peters, Angela Bowden, and **Jill Friar** discuss the different portrait packages.

In her own little world, **Patricia Perry** fills out her senior order form.

Each senior wants keepsakes that will bring back memories years from now. And everything that a person receives as a senior will serve as a reminder of good and bad things their class went through. Memory books, announcements, class keys, cap, gown, tassel, name cards, and senior pictures — each of these play a big part in your senior year. And as the years go by each of these will bring back memories in a different way.

Is It Worth The Pain?

Practice, Practice, Practice

Patricia Perry, Annette Peters, and **Andrea Choate** wait anxiously for a court at Old Post Road Park.

"Not another wall!" That's what the players say during basketball practice. For many, preseason conditioning began a month before school even started. It's not just athletes that need to practice, though. Band members have also learned that long hours of rehearsal go into performing. This preparation includes learning to play an instrument, memorizing the different notes, studying the music, and learning to play as a group. Band member **Kelly Armstrong,** when asked "What makes the band good?" replied, "People have to work together and do it well, which makes a good band!" In the continuous struggle for perfection, these students give up a lot of time and energy, but the rewards they gain far outweigh the effort. Any athlete or musician will tell you that while practice isn't always easy, it is usually worth the effort.

ANGELA BOWDEN, TENNIS
I have been a member of the Beansprouts tennis team for three years. The thing Miss Bean tells us the most is "Practice!" But it's true that the more you put into it, the better you will be.

TAMI HEFLIN, CHEERLEADER
Practice is fun and is usually worth the effort. It takes practice to pull everyone together as a squad. Usually it is a real adventure trying to get everyone dressed out for after-school practice!

Randall Ford lets nothing stand in his way.

Buddy Melbe and teammate fight the battle of the boards.

Practicing isn't so bad outside amongst the weeds on a pretty day.

Lockers Can Be Shockers!

Is Yours?

Can you find almost everything in your locker except books?

When you finally clean out your locker do you find things and wonder what they are?

Have you ever put something in your locker but never found it again?

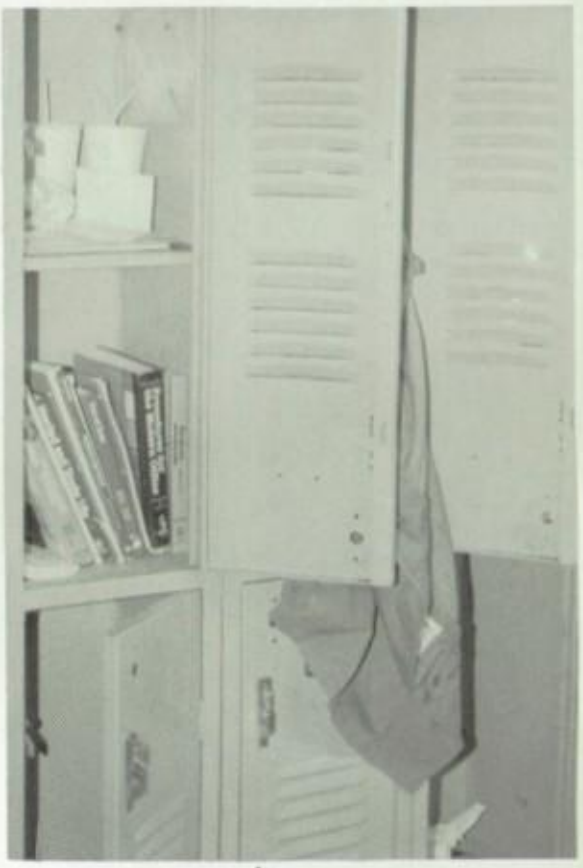
Do you leave food in your locker so long that you can smell it three lockers down?

When you finally get your book out of your locker is it time to find a different book because it's time for your next class?

If you have a locker on top, do all the people who have a locker below you run when you start to open your locker?

If your answers are yes, then your locker is definitely a shocker.

Lori Varjenski shows off her neat locker. Books aren't the only thing kept in the lockers at PHS



Wilma Mathis struggling hard to find her book. Locker shockers at PHS

No Smoking Or Dipping

This year a few students had to change what they normally would do during lunch or before school. The reason for this is smoking and dipping are no longer allowed at school. Some students had a hard time coping with this, since it is a very hard habit to break. Maybe now though some students will quit for good, since they have made it thru the day without it.

Locker neighbors gossiping as usual.

Even **Cleopatra, Angela Caudle,** has to search for her books in her locker.

Surprising as it may seem, there are a few neat lockers at PHS.

Brilliant Disguise
1987 Homecoming And Spirit Week

Spirit Week had a very good turnout this year. A lot of students participated, but a few of the teachers' had their own little way of showing their school spirit also. For instance, Mrs. Pyatt, who dressed up as a Madam on Halloween Day, thought she would put Matt Jones and Mr. Yeager to the test by telling them the "four" words: rich, boys, stop, and non-no! This caused Matt Jones to slide the morning bulletin underneath the door the next day instead of bringing it into the room.

Each day of Spirit Week consisted of a different theme for the day. Monday-Cartoon Character Day; Tuesday-Mythology Day; Wednesday-Clown Day; Thursday-Halloween Day; and Friday-Black & Gold Day. Personally, I think it takes a lot of spirit to come to school wrapped in a sheet like some students did on Mythology Day. An arm wrestling tournament, and a scavenger hunt also went on during Spirit Week. Mike Creekmoore was the winner of the Sr. High division arm wrestling tournament, and Kevin Lunningham was winner of the Jr. High division.

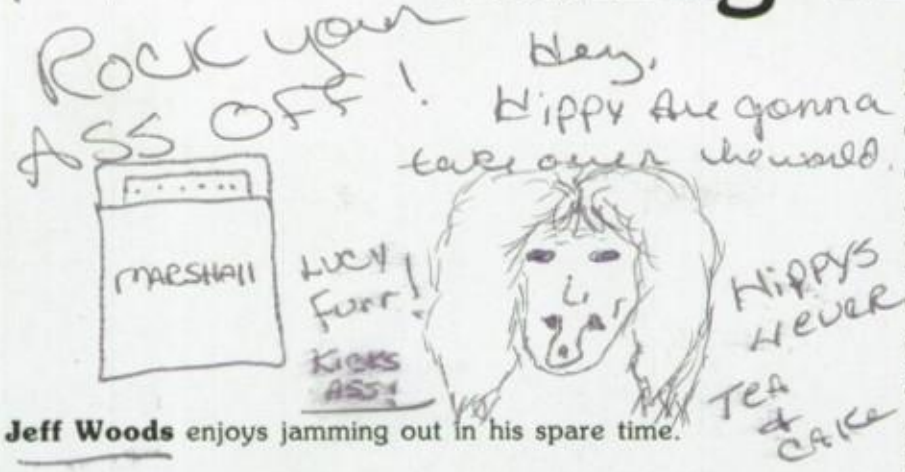
Taking It Easy



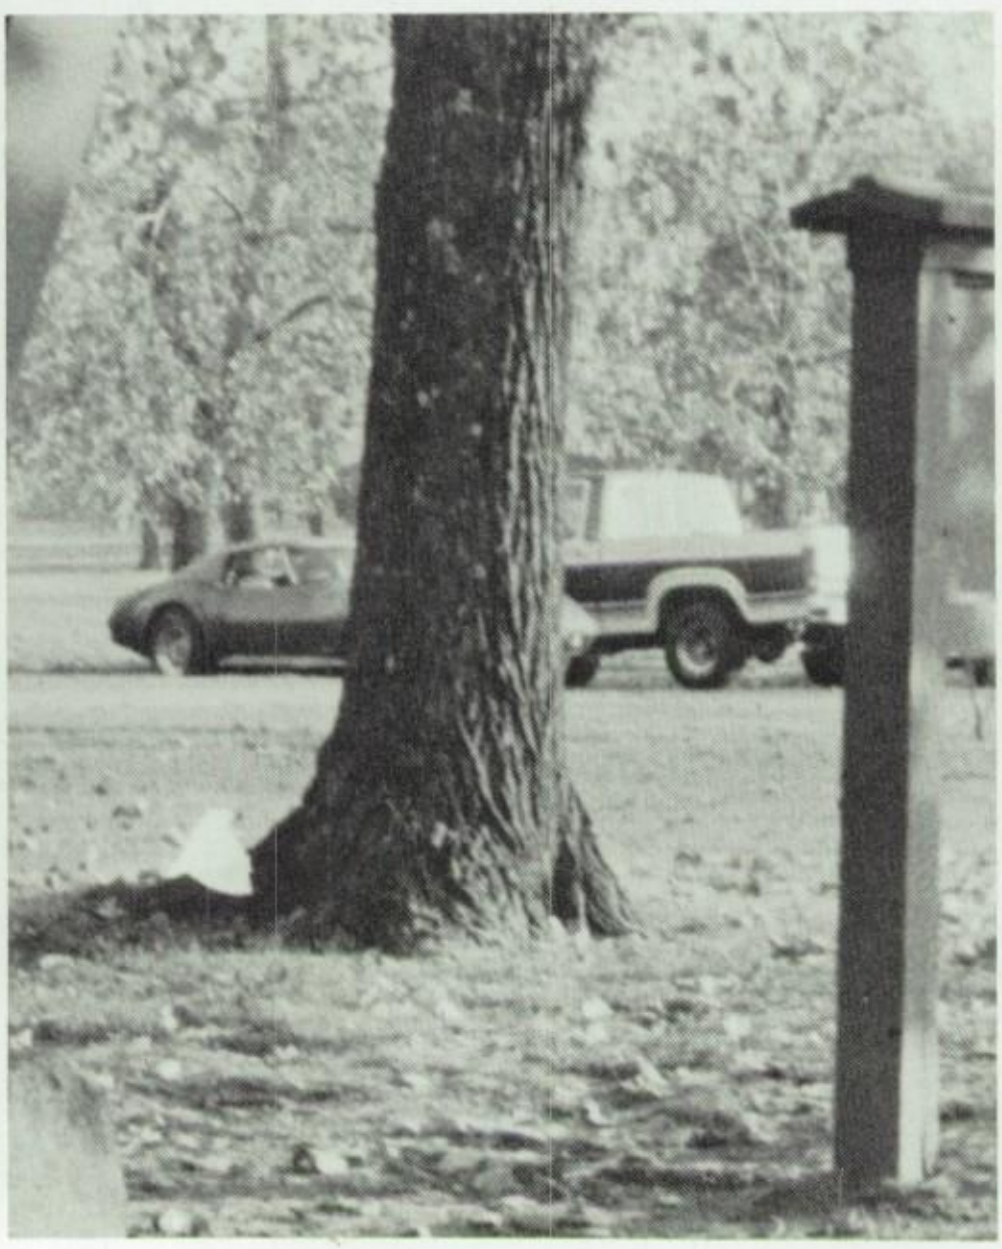
Jeff Woods enjoys jamming out in his spare time.

Christy Dunlap and **Melissa Findley** catch rays at the lake.

Free time is very important to students at PHS. This free time gives students a chance to relax and do things they enjoy. Preferred activities include horseback and 3-wheeler riding (especially in the mud), going to movies and concerts, and just plain *relaxing.* Spending time with friends is also important, and everyone likes the chance to run around Russellville on the weekends.

Vacation time is also spent in getting away from things that have to be done. **Mrs. Cioppa** said, "The ideal vacation would be a trip to the Loire Valley in France. I would love to see the castles and chateaus there, and speak the language with *real* French people." Hawaii was **Jennifer Hall's** choice, because "it is a really beautiful place, and it would be exciting to go there."

"Getting away from it all" is easy to accomplish. Just find out what you really want to do, and do it. That's what the people at Pottsville High School do!



Charlie Tucker slams one home.

The Old Post Road Park is the perfect parking spot.

The contestants each had to go solo before the judges to display their appearance and poise. Now they await the final decision.

From left, the winners are: Jr. High Runner-up **Ashley Bowden** and escort **Beau Judd:** Jr. High Winner **Loretta Stegall** and escort **Mike Haralson;** Sr. High Winner **Angela Bowden** and escort **Stephen Daniel;** Sr. High Runner-up **Cathy Dennis** and escort **Robert Taylor.**

Above: **Tawana Webster** and **Stephanie Halsted** prepare for the pageant as **Kelly Armstrong** heads for her seat. Left: **Alicia Hay** takes her turn before the judges.

And The Winner Is . . . Everyone Who Participated!

Sweetheart '87

The Sweetheart Pageant is sponsored each year by the P.T.O. Contestants are judged on appearance, poise, and style, and there are four divisions: K-3; 4-6; 7-9; and 10-12 grades. The judges were Freda Banning and Tawana Hudson, and were invited by Linda Peters, Pageant Coordinator.

Senior High winner **Angela Bowden** and, **"Steve** and I really weren't nervous until the time came to walk out there in front of *everyone*. We'd been telling each other all day that someone else would win, so we were completely surprised when the judges announced the winner. It was really exciting!"

But even though not everyone who entered the pageant could win, each contestant gained valuable experience and confidence. And since everyone had such a good time, the audience and all the contestants were actually winners.

Left: **Andrea Choate** says a little prayer before she and her escort **Buddy Melbe** begin the long walk onstage. Above: **Cathy Dennis** smiles for the judges as she makes her way across the stage.

Hard Work, Hanging Streamers, And High Spirits Made It A Success

1987 Jr.-Sr. Prom

A lot of work went into the 1987 Junior-Senior Prom, but everyone will agree that it was a huge success. After working since their sophomore year to raise money and after ordering everything needed for decorations, the Juniors were ready to *really* start working on the Prom.

The entire day of April 25 was spent suspending the lavender and silver streamers from the center of the ceiling, attaching the lavender plastic walls to the hanging wires, and setting up the fountain, which actually held five live goldfish. At three o'clock forty weary Juniors headed home to do the real work-getting ready!

"After we spent all that time decorating, I thought I was going to be too tired to go, but I forced myself and had a great time!" **Jill Friar** said. At 7:30 people began to arrive, and by 8:30 the Prom was in full swing. The dance lasted until midnight, and the movie, "My Demon Lover", began at 1:00. From there the Promgoers headed to Sportsworld to bowl, and at 5:00 the breakfast was held in the cafeteria. "When the breakfast was over, all I wanted to do was go home and sleep for a week. I was so tired that I almost fell asleep in my plate!" said **Beth Holt.**

The theme, "Never Say Goodbye", and the tropical decor transformed the gym into paradise for just one night.

Laura Duvall and her date relax for a moment after enjoying the Prom buffet.

Stephen Daniel assists **Ms. Canerday** with the Coke machine during the dance.

Lori Anderson, Miss Fowler, and **Leslie Jones** let their hair down (and kick their shoes off) at the dance. Below: These Prom chaperones-**Mr.** and **Mrs. Duvall** and **Coach** and **Mrs. LaFevers-** try to keep their eyes on the breakfasters-at 6:00 a.m.!

The atmosphere was great! I felt like I was far away on a tropical island! It was the best night of the whole year, and I wish it could have lasted forever!

-Annette Peters

The class of 1988 has 37 graduating members. Although some have not been in the class for the whole twelve years, there is a strong bond between the seniors strengthened by years of closeness and sharing.

This class has seen many changes take place at Pottsville school. Twelve years ago, the charter kindergarten class contained many now-graduating seniors. When this class reached the seventh grade a new institution, Jr. Beta Club, was begun and again, these Seniors were charter members. As sophomores, these seniors were instrumental in the forming of a Student Council, and this year became charter members of yet another organization, Future Business Leaders of America. In addition, a tradition of having Sr. class breakfast meetings was begun by this class.

Now, Pottsville High has prepared these 37 young people to face the world. Most know what their immediate futures hold; some are unsure, but will soon discover what they want to accomplish. The Class of 1988 is an energetic group that will be very successful in anything.

Juniors

When you walk down the hall at PHS, it is always easy to tell the Juniors from anyone else. The typical Junior usually has a stack of books which they have carried so long that their arms now extend to their knees, work or gym clothes on top of that, dark rings under their eyes from lack of sleep, and a Tom Watt Box that they managed to drag along some way. If you happen to find one sitting down, they are usually daydreaming about a long vacation with no homework. All this is brought on by the many different things that a Junior does such as writing reports, raising money for the Prom, participating in just about every club, playing basketball, and of course having fun on the weekend. Some Juniors though still find time for a part-time job. This is not because they like to work but because they do not think they could live without the money and a car. Juniors also could not live without that great attitude that makes them have fun all year even thru the hard work and new experiences which all aren't so pleasant.

The Junior class sponsors are Mrs. Huddleston, Coach Needham, and Mrs. Cioppa.

Sophomores

Michelle Duckmanton, Dawn Easter, Francis Jackson, Beverly Titsworth, Charlotte Spradlin, and Beverly Kemp take a break in Home Ec.

The 10th grade is an important year as more responsibilities are added. Sophomores have the chance to choose more classes than ever before. These choices include: French, Typing, Geometry, Agri, Home Economics, and World History. Along with becoming a sophomore come more freedoms, which most people like. These freedoms mean being able to go out more, obtaining a drivers license, and being granted more responsibility. The sophomores also have to raise money for prom, by sponsoring the talent show and other fundraising events. The class would not be able to make this possible if it weren't for our sponsor's, Ms. Canerday, Mrs. Gay, and Mr. Loudermilk, to whom we owe a lot. Overall the sophomore year is pretty exciting!

Freshmen

This year it is possible for the Freshman class to take typing and French. These classes have not been offered to the ninth grade before.

When asked why they chose to take these classes, **David O'Barr** responded that it was interesting to learn how to type. **Melissa Rackers** replied that she wanted to learn to speak a different language.

Many classes were given up so that these classes could be taken. Some gave up study hall, while others gave up Agri and band.

The Freshman class sponsors are Mr. Johnston, Mr. Mills, and Mrs. L. Jones.

Eighth Grade

Lori Varjenski's opinion about 8th grade is: Well, the 8th grade is almost like the 7th grade in some ways. I mean we have the same teachers, only harder work. The best thing about the 8th grade is basketball. We have alot more games. Even if you don't get to play as much as wanted, you have the satisfaction of knowing you are on the Junior High ball team. In 7th grade you feel small, but in the 8th grade your moving up a little bit, even if it takes a year to move up to the space, every year you become a little more noticed, and the 8th grade starts that path. So if you aren't enjoying your 7th grade year, the 8th grade can only get better. The 8th grade sponsors are **Gladys Jones, Jim Yeager,** and **Jerry Yates.**

Seventh Grade

Do you remember your first of High School? Trying to make it to class in 5 minutes, meeting new kids and teachers, fighting the crowds in the hall, racing to the cafeteria so you wouldn't be the last in line, wondering if you'd get a seat on the but — these are just a few of the things seventh graders go through. Starting to High School can be a traumatic experience for anyone, but the Sponsors for the seventh grade class are Mr. Larry LaFevers, Mrs. Sharon LaFevers, Mrs. Kay LeGrow, and Mrs. Miriam Pyatt.

Mike

Well it seems like you just started here and we're already graduating. I remember I use to think you were the strangest person I ever met but after I get to know you I realized that you were the most interesting person I ever met. I just love you to death We really ~~~~ ought to go out sometime. Don't tell Samantha. Ha Ha I wish all the luck in the world in whatever you do and at guitar school. I'll miss you!

Love Ya always

Future Business Leaders of America, this is the very first year for FBLA at Pottsville High with 30 members enrolled. Goals of this organization include developing competent, aggressive business leadership, strengthen the confidence of students in themselves and their work, to create more interests in the understanding of American business enterprise, and encourage members in the development of individual projects which contribute to the improvement of home, business, and community. Projects for the year include raising money for the Arkansas Children's Hospital by sponsoring a Chili Supper and A Pretty Baby Contest. The FBLA school project will be to design and print a brochure about Pottsville High School and the Pottsville Community.

Future Homemakers of America, the name says it all. FHA is a very fun organization. The sponsor, Deborah Fowler, gives each and every one of us a great opportunity to learn about self-development and more. FHA sponsors a 5K Road Race for the Arkansas Children's Hospital, and a Mother Daughter Banquet. Many other activities are included such as FHA week, parties for Christmas and Valentines. The FFA and FHA also have a picnic in the late Spring and the early Fall.

Girls And Boys State

Girls and Boys State are week-long summer programs sponsored by the American Legion and teh American Legion Auxiliary. Participants have the chance to experience state government firsthand and meet people from all over the state. The people chosen for state office spend one day in the State Capitol learning how the government is run. Most Boys and Girls Staters enjoy a week on a college campus, meet new people, and maybe even meet Governor Bill Clinton, or get elected to a state office.

CSU

Christian Student Union

CSU is an organization quite different from most clubs here at school. This is a group for fellowship, and to teach and learn about Jesus Christ. Some of the activities that we do include, collecting cans of food for the Salvation Army, a Christmas party, and other special events.

Meetings are held the first and third Wednesday of every month.

Vo-Tech

Morning Vo-tech are Cliff Cummings, Kenny Loveless, Jimmy Daniels, Scotty Reynolds, and Christy Vick.

The Vocational Technical School, also known as Vo-Tech, has many things to offer students in Pope county. These things include everything from auto mechanics to electronics to cosmotology. Students take these courses for a better career outlook on life. They master certain skills in which they will use in their lifelong careers. Several students attending Vo-tech remarked about how much work is required in order to obtain their specialized skills. But overall, they enjoy going to Vo-tech, not only because they acheive skills for careers, but they get a chance to meet other students from the Pope county area attending too.

The afternoon class at Vo-tech includes Michael Bunton and David Findley.

Something Special

Randall Ford, Tim Gray, and **Kevin Hogan** won second place in the Stock Market Game. Their sponsor for this contest was Mrs. Gladys Jones. They received cash awards and T-shirts.

Angela Bowden was recognized as a commended scholar by the National Merit Scholarship Program. She received this distinction from scoring a certan level on the PSAT. Agnela's scores ranked among the top three percent of those students who took the test.

Members of the Soil Conservation Junior Board of the Pope county area are **Cliff Cummings** and **Kevin Boren.** Both members are involved in the Board's activities which range from slide shows to the yearly tree bundles.

In the All Region Band Tryouts, **Cassandra Cummings** received second band last seat. Her instrument in which she used to obtain this position is the clarinet.

1988 Apache Staff

HYSTERIA aptly describes the mental condition of the 1988 Apache staffers as we try to complete the yearbook. It is a lot of hard work, but we somehow always manage to meet the four deadlines. Teamwork is the key. We also have a great sponsor, Miss Bean, who is always keeping us and our stomachs happy with good food like pizza and ice cream after we complete a deadline. We have to have something to keep our busy bodies going.

Yearbook class gives you good experience in page design, copy writing, photography, advertising, darkroom work, organizing, and marketing. Learning this will be a benefit to us to use in the business world of today and tomorrow. We hope you enjoy this book because we've tried to make it special just for you.

SPORTS

Mike, this is the first year I had a class with you and it's been pretty cool. Don't forget the time I had that crush on you, the good times and the bad times. Have you got over it yet? Don't blame me, I'm irresistible. Leave you alone? Shell grow up and quit chasing me. It's Rules! Stay sweet, Argie Farber. Young.

Senior Girls & Boys

Full Of Pride In Themselves And In The Team

Pottsville Senior Basketball is a program that those participating take a great deal of pride in. Both girls and boys work very hard to make their program something that everyone at Pottsville High can be proud of. Sometimes the score does not read as we would like it to, but if the effort was good these players have nothing to be ashamed of. The most important aspect of the game of basketball is the lessons learned by those playing the game. Self discipline, winning and losing gracefully, and respect for your fellow man are three very important lessons to be learned. Winning is important or there would not be a scoreboard in the gym. Winning though, at the expense of sacrificing one of the lessons is not.

I am very proud to be the Coach of Pottsville Senior Basketball and our athletes can always hold their heads high and walk with a great deal of pride. Just keep up the hard work and it will pay off in the future.

Seventh Grade Basketball

A New Beginning

These teams give alot of time and effort to be great basketball teams. They have alot of enthusiasm about playing because they know they are working themselves up to being a better team. These teams also have alot of team spirit and work great together and this is what it takes to be a great team.

Alicia Hay watches while **Libby Gray** and **Karla Price** fights for the rebound.

Playing basketball takes alot of hard work. You have to be willing to put some time into it if you want to be good. It also takes determination, skill, and the ability to work together as a team. These Juniors are working hard to be the best they can be. It helps having a coach like Coach Needham helping to build their confidence.

Watch The Beansprouts Grow

The 1988 Pottsville High Tennis Team

Even though tennis is not new to Pottsville High, it grows more every year. Not only does it grow with people but also with experience. Along with seasonal practice the players are also encouraged to take summer lessons. Tennis, like any other sport, requires time, practice, and skill. This year should be a very favorable year. For "The Beansprouts," most of last year's team returns with plenty of experience. The goal of every tennis player is not just to win his or her match but to make it to District Tournament and possibly to State Tournament. The Beansprouts play against local schools, usually at the courts at the Dardanelle Lock and Dam. The tennis team would not be where it is today of ot wasn't for our coach, *Ms. Bean,* to whom we owe a lot.

Playing for four years now, I feel that my doubles partner and I have a good chance to go to state tournament this year. Some of our toughest competitors are Atkins, Danville, and Paris. But with *Ms. Bean's* coaching and guidance I believe we will have a good chance of defeating our competitors.- *Andrea Choate*

Left *Randall Blalock* going after the ball. *Charlie Tucker* uses a powerful backhand.

Being my last year, my first and most important goal is to go to State tournament. I want to be the best I can be out on the courts this year!- *Melissa Findley*

Onlookers *Andrea Choate, Annette Peters,* and *Patricia Perry* take a break at District Tournament.

Cheerleaders
Providing Support

Cheerleaders provide support for the athletic teams at PHS. They also sponsor homecoming week, including the ceremony and dance.
The Cheerleaders occassionally go to ballgames away from home to support the teams.
Cheerleader fund raisers center around objects that support school spirit.

Pep Club

Spirit Raisers!

A fun filled and exciting club to be in — Pep Club! Pep Club members are dedicated to giving the school spirit. They cheer our teams on at games and always stand behind them in victory or defeat. Pep club members help organize the activities for Homecoming. And any activity that involves the cheerleaders usually involves Pep Club.
Pep Club fund raisers are limited to one a year. And in the future it will probably be the sale of school T-shirts.

Global Fest 1987

Global Fest-a collection of exhibits and performances that allows area residents to sample different cultures-was held at Tucker Coliseum this year. Mrs. Gladys Jones and Mrs. Cioppa participated by taking their Global Studies and French classes to Global Fest and allowing them to experience this meeting of cultures.

"It was really interesting, and we all learned a lot. We even got to watch McDonald's and Pepsi commercials in Spanish!" said Andrea Choate. Laura Duvall added, "There was a bunch of neat stuff, and a whole lot of food from other countries. The only thing was that the people all sang in different languages, and we couldn't understand what they were saying!"

Global Fest gave our students and teachers the chance to experience new cultures, and learn about different cultures and customs.

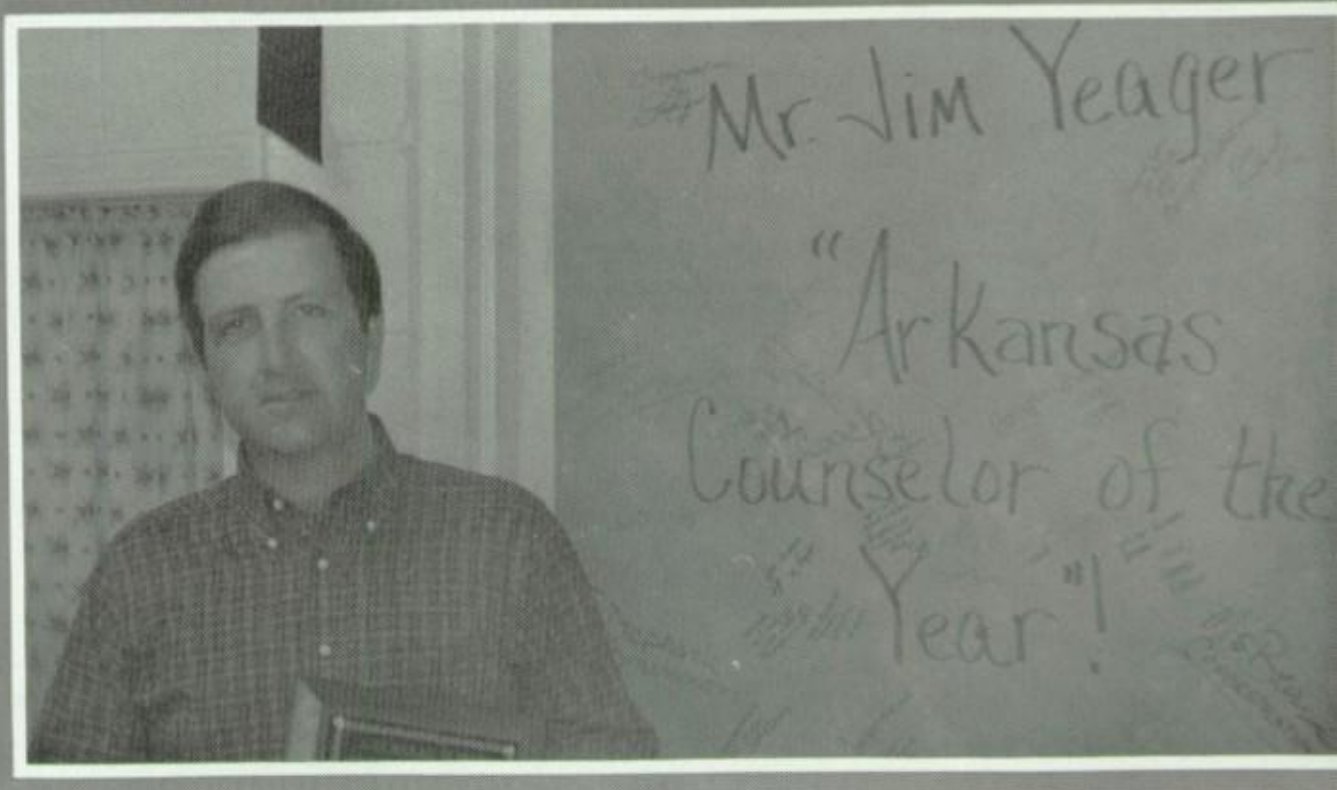
SCORE-ing at PHS

SCORE (Student Career and Occupational Research and Exploration) is a program designed to help students become aware of career opportunities. It was developed four years ago, and is designed to include interviews, resumes, applications, and manual and computerized career research.

Most seniors take part in the program, which was started this year at SCORE Kickoff Day, Nov. 19. Many area business leaders came to preview the program and see how to SCORE.

Mr. Jim Yeager displays his **Counselor of the Year** award in front of his decorated office door.



etc . . .

Lights Out!

"All right, who kicked the plug out of the wall?"

This phrase was heard several times around school when the power failed-which it did not just once, but three times! The electricity was shut off once during a school assembly in the gym, once while classes were in session, and once at halftime of a Sr. Girls' basketball game.

(The Lady Apaches won the game when the second half was played the next night.) Even though no one really knew the cause of the power failure, school continued as usual. The teachers with windows on the south side of the building had no problem, but others such as Miss Bean had to resort to candles and flashlights. **Miss Bean** commented, "I can't believe this happened again! You just don't realize how important electricity is until it goes out and you're stuck with a whole roomful of electronic equipment and you have no way to teach!"

Wilma Mathis, Angela Caudle, and **Annette Peters** aren't afraid of any ghosts-are they?

A string quartet from Tech performs at Global Fest. **Robert Taylor** and **Robert May** are glad to be Dealing with American culture and not one from another country.

The program was developed by **Mr. Yeager,** who was also honored by being named **State Secondary Counselor of the Year** on Nov. 10.

"I was surprised and embarrassed. It was a very humbling experience and I didn't know what to think. It really made me feel good, because it is chosen by all the other counselors in the state. It is especially great because it reflects well on our school and faculty," said **Mr. Yeager.** "Special things like this make Pottsville look really great."

Mrs. Pyatt makes sure that **Mr. Harold Cornett** knows the SCORE.

etc . . .

Melissa Findley and **Andrea Choate** welcome business leaders to SCORE kickoff.

Coach LaFevers and **Coach Seibenmorgan** discover that *someone* must have been messing with the breaker box in the gym. Miss Bean uses a candle to light her room and Robert Taylor to keep her company in the dark.

etc . . .
Music

Music is a very popular hobby that most of the students of P.H.S. have. A poll was taken this year to see what most of the students favored. Whitesnake was number one all the way, including the concert and the group. Whitesnake also had the favorite song "Here I Go Again". And they finished with their lead singer David Coverdale being selected as the best singer.

Pottsville's favorite group "Whitesnake".

Kevin Boren enjoys wearing his 501's.

Fashion

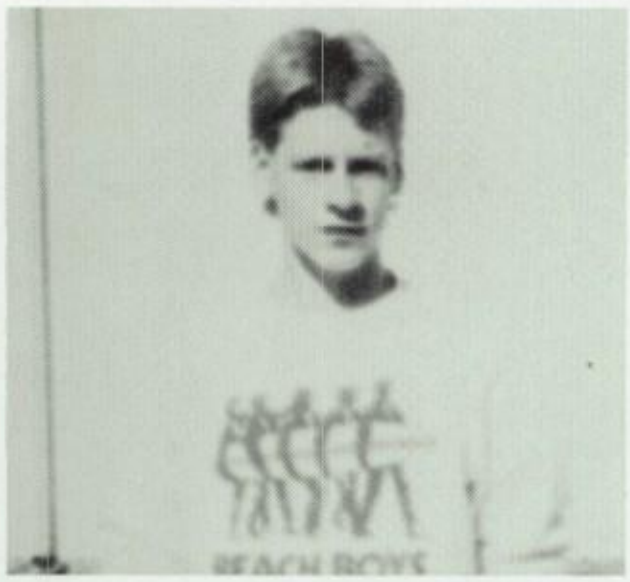
Many people here at Pottsville High take a lot of time and saved money to look good. A lot of the styles vary from Guess jeans to Wrangler. Most preppy wear Guess jeans, and cowboys wear Wrangler jeans. 501's and Lee's are probably the most popular jeans our students wear.

Ashley Bowden and Kelly Armstrong take time out to show a little of their fashion.

etc . . .
Macho Miss

The eleventh grade class this year decided to do some new and differnt ideas to raise money for the Prom. A Macho Miss pageant was chosen. The guys dressed up as girls and the girls as guys. The winners of the Macho Miss was Brenda Chenowith escorted by Sydney Woolf. The guys agreed it was embarassing, but enjoyed every bit of it. Everyone worked hard and are hoping that the Macho Miss can be carried on as a tradition.

Brent Chenowith is very happy to be the first Macho Miss.



Mike Kibler shows proudness for his music Ozzy Osbourne and Randy Rhoads. **Elton Cook** seems to like the Beach Boys.

This year at Pottsville High, a new rule has been established. Each student driven vehicle must have at least liability insurance and have a parking permit sticker on their car. This is to prevent other vehicles loitering in our parking lots.

etc . . .

Mechelle May and **Sherri Harris** can't figure out what fashion they like best.

Jeannene Mathis and **Jennifer Teeter** show off their mini skirts.

J. Sanders tries real hard to win the pageant.

The judges seem to find this pageant a little amusing.

Kevin Boren shows his stuff or his stuffing.

Growing Times At PHS

A major obstacle this year at PHS has been the addition of four classrooms and two restrooms. The construction has caused problems such as blocking a doorway and making the trip to the lunchroom a little longer. The construction shows a growing student body, which is a good sign. Once the construction is completed the Senior High and Junior High will be separated to opposite ends of the building. Even though the construction may be a problem now, once completed it will be worth the inconveniences.

Construction shows the changing times at PHS

What A Match

Every year FFA elects their Sweetheart and FHA elects their Beau. The Sweetheart must attend the FFA Banquet and the Beau must attend the FHA Banquet. The Beau not the Sweetheart have to belong to either organization. This practice has been a tradition for a very long time. Being elected to this office is very honorable.

Robert May and Cathy Dennis having fun.

A Night At The Movies

Annette Peters doesn't look happy!

etc . . .

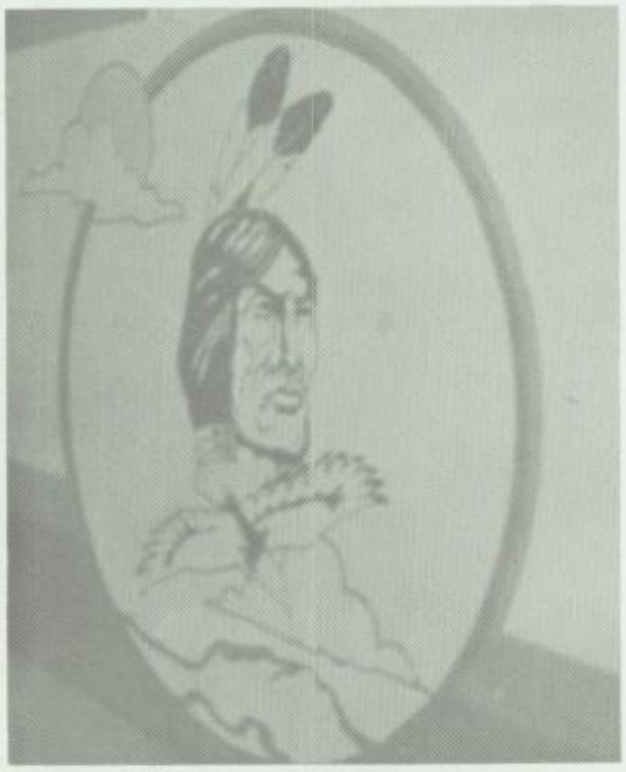
Movie viewing has come a long way over the years, from going to the drive-in to see a movie to going to an air conditioned and heated movie theatre of today. It is safe to say not only has movie viewing become better but the quality of movie making has become better. Today, home movies can be filmed and viewed on the same day by the use of Video Cassette Reorders, VCR's. Still one thing has stayed the same, the movies are still a common dating place.

The eighth graders take a break!

Jason Needham is hard at work.

The addition also will enlarge the school to where it will attract new business and their families. The construction will update the business and science departments, which will enable Pottsville to better compete with other large schools. Even though the construction may be a problem now, once completed it will be worth the inconveniences. The construction would not be possible if it weren't for the cooperation of the students and faculty.

Left: Mrs. Jones hard at work



etc . . .

The art program usually has a small class and can do many projects and can learn a lot more than in a large class. They learn how to use many art materials. They have a group of projects as well as individual projects. They usually paint windows every year for Christmas, and they help with Homecoming decorations. It is a relaxed atmosphere where you can work on your own pace without pressure.

"Are you impressed?"

The mural in the hall is one of the many projects of the art program. The program for gifted/talented students is designed to provide students an opportunity to study subject matter and participate in activities not covered in the regular school curriculum. Students are encouraged to think and act creatively and independently.

Counselor And The Ambassadors How They Work Together

Mrs. Stroud is the elementary counselor. She teaches each grade different subjects. In the Kindergarten through third grades she teaches developing understanding of self. In the fourth through sixth grades she teaches self awareness, and study skills. Mrs. Stroud also helps students with individual coping skills, and students who have failing grades and wish to raise them.

Mrs. Stroud also helps with the ambassador program. This program helps new students at Pottsville Elementary School feel welcome. The Ambassadors give new students in their classroom a tour of the campus, make introductions to the students and the teachers in the school.

The ambassador are from left to right. 1st row: Sara Harris 1-A, Micheal Sweeny 1-B, Shanna Swell 1-B, Clayton Nichols 1-B, Amanda Stark 1-C, Cleveland Sanders 1-C, LeAnn Teeter 2-A, Jason Duvall 2-A, Melissa Reidmuller 2-B, David Helfin 2-B, Ericia Lunningham, 2-C, T.J. Williams 2-C. 2nd row Lisa Price 3-A, Adam Caudle 3-A, Christy Lelievere 3-B, Scott Lunnigham 3-B, Charris Barnes 4-A, Stacey Sanders 4-C, Wesley Choate 4-C. 3rd row: Jason Howard 5-A, Wendy Ford 5-B, Jess Hays 5-B, Betty Jo King 5-C, Daniel Scribner 6-B, Amanda Harris 6-B, Donny Kemp 6-B

Students And The Teacher In

Speech Class

Mrs. Merguie is the elementary speech teacher. In Speech class there are two subjects that are worked more than others they are Articulation and Language. Articulation is when some one miss sounds a letter in a word. In Language they work on helping students to catch up when they get behind.

Everything From A To Z- And Then Some-At The Library.

One of the biggest necessities in a school is its library, and after the library comes the librarian; none other than **Mrs. Jo Davidson. Mrs. Davidson** holds classes in the library 8:30 to 1:00 every morning and teaches library skills to third through sixth grades. She also has kindergarten and first grade classes twice a week and works with the teachers to integrate audio-visual and print materials into their curriculum. Libraries certainly couldn't function smoothly without the help of the following library aides: **Dondie Cummings, Tanya Garrison, Wendie Ford, Becky Causey, Ricky Armstrong, Maghan Rhey, Josh Allen, Bonita Duvall, Shawn Taylor, Eric Flud, Glen Goree, Betty King,** and **Mindy Clayton.**

I wonder if **Mrs. Beta** knows she's being followed? **Barbara Burkhart** likes taking advantage of her library time.

The 1986 Sweetheart Pageant Produced Nothing But . . . .

Winners!

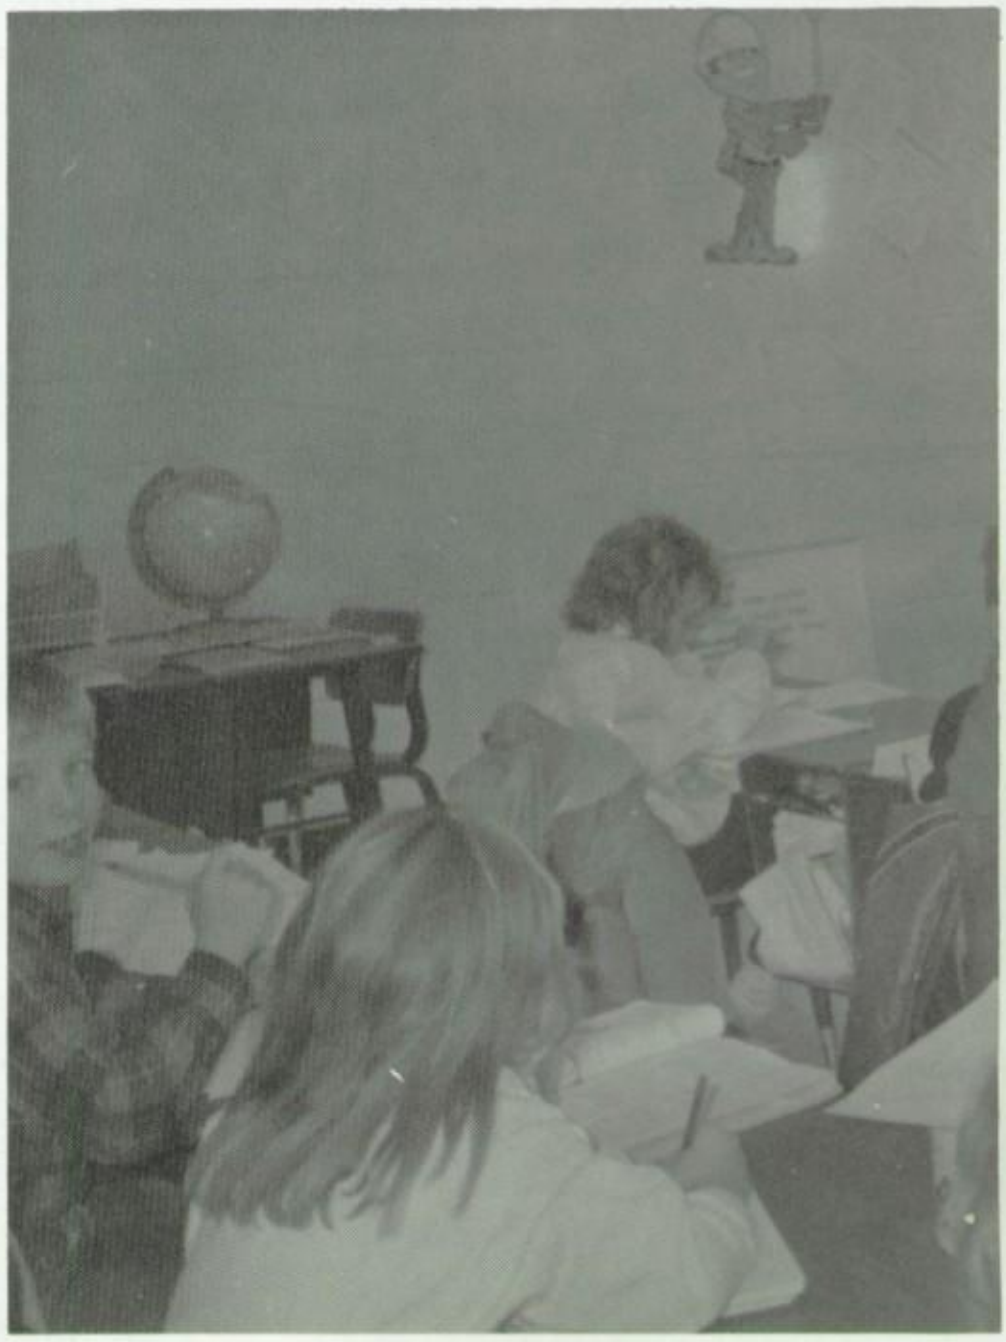
The 1986 Sweetheart Pageant was quite a success. One couple was entered from each elementary classroom, and they competed for crowns and ribbons. The Pageant was sponsored by the PTO and always generates a lot of excitement. The contestants were judged in two divisions; K-3 and 4-6, and were judged on poise, appearance, and stage presence. Although some of the contestants were a little nervous at first, they relaxed once the pageant got underway.

Lisa Price walks nervously in front of the judges.

Just imagine in thirteen to fourteen years these kids could be anything from a doctor to a professional ball player.

I Want To Be A . . .

When we asked the elementary students at Pottsville what they wanted to be when they grew up, we received a wide variety of answers. Some, such as a paleontologist, were amazing, and some were really cute such as a babysitter or a mom. A few students wanted to be a famous rock star or pro ball player like their favorite idol. Others want to be a carpenter, maid, or fireman. Many wanted to join part of the armed forces. Most popular of all though was to be a teacher. Whatever these students want to be whether it's a doctor, a fireman, a pilot, or a teacher, we give them all the luck in the world and hope that they become just that.



Choosing a career can begin as early as in the third grade.

Sixth Grade

The sixth grade year is a very fun and exciting year. There is also alot of responsibility that comes with it. They are the oldest in grade school so they have to set an example for the younger students. They can sit this example by making good grades and acting more mature.

This year is not all work and no play. They get to do alot of different projects, like the great egg project. They also get to write in a journal.

Third Grade

Being a Third Grader is not an easy thing. Third Grade is the year that you transfer from manuscript to cursive writing, learn dictionary usage, take your first "real" test, learn to write paragraphs and letters, and learn the parts of a sentence. Being a Third Grader can be very tiring and hard, but it is an important and rewarding year.

Mayor Heathcoat came and spoke for the Third Graders this year and in March they took their first minimum performance test.

Second Grade

Energetic second graders playing.

The Second Grade is a very energetic group of young people. They enjoy almost everything from 3-wheeling to playing Atari or just plain having fun. They like doing anything that deals with having a good time. But there is always work to be done by the second grade. They are able to print their own name and even begin to read some but they are not really ready for a whole book to read by themselves. They are at the turning point of learning, going from printing and reading a sentence to cursive writing and reading a whole paragraph. So overall the second grade has quite a lot to deal with, everything from working steadily to having a good time with each other.

Adventures In Teaching

Young children are very curious. As Kindergarten teachers, we attempt to channel this natural curiosity into meaningful learning experiences. Through the use of workbooks, the children learn phonics and numeral concepts, and develop such skills as following oral directions and left-to-right progression. Through dramatic and interactive play, the children learn creative expression and how to get along with others. It is our goal to give each child the best education possible. Most importantly, we strive to help each child feel good about himself and the world around him.

Mrs. Holder's class sit around telling ghost stories.

Heather Brock may become a state trooper, only if the hat fit.

Kindergarten is one of the most important years in elementary school. They make new friends and they are separating from their parents more than ever before. They are exposed to **more** than ever before. This year the Kindergarteners had guest speakers such as a nurse, a firefighter, and a police officer. Each professional gave a description of their job in which the children were very responsive. But overall kindergarten is more of an opening up and experiencing year for the children.

A local firefighter demonstates using a fire hose.

Left: A local nurse speaks to the kindergarten class.

A local police officer answers a question from a curious student.

Amy Halsted and friend about in the halls.

Amanda Harris is hard at work.

The sixth grade is an important year for the students. Not only is it their last year of elementary but they are also prepared for Junior High. A poll taken among the sixth graders showed they preferred math and science most because of the experiments, they also preferred sixth grade over the previous years because of their teachers, and most of them planned to go to college to be a wide variety of professions from being a teacher to an Air Force Pilot. Most of the students were glad that this was their last year in elementary because they are looking forward to being in Junior High. There is an advantage unseen to the elementary students, they do not have to worry about being in their classroom at a certain time. This year the sixth graders have two new teachers, David DePoyster and Rebecca Grace. They are both very excited about teaching in Pottsville.

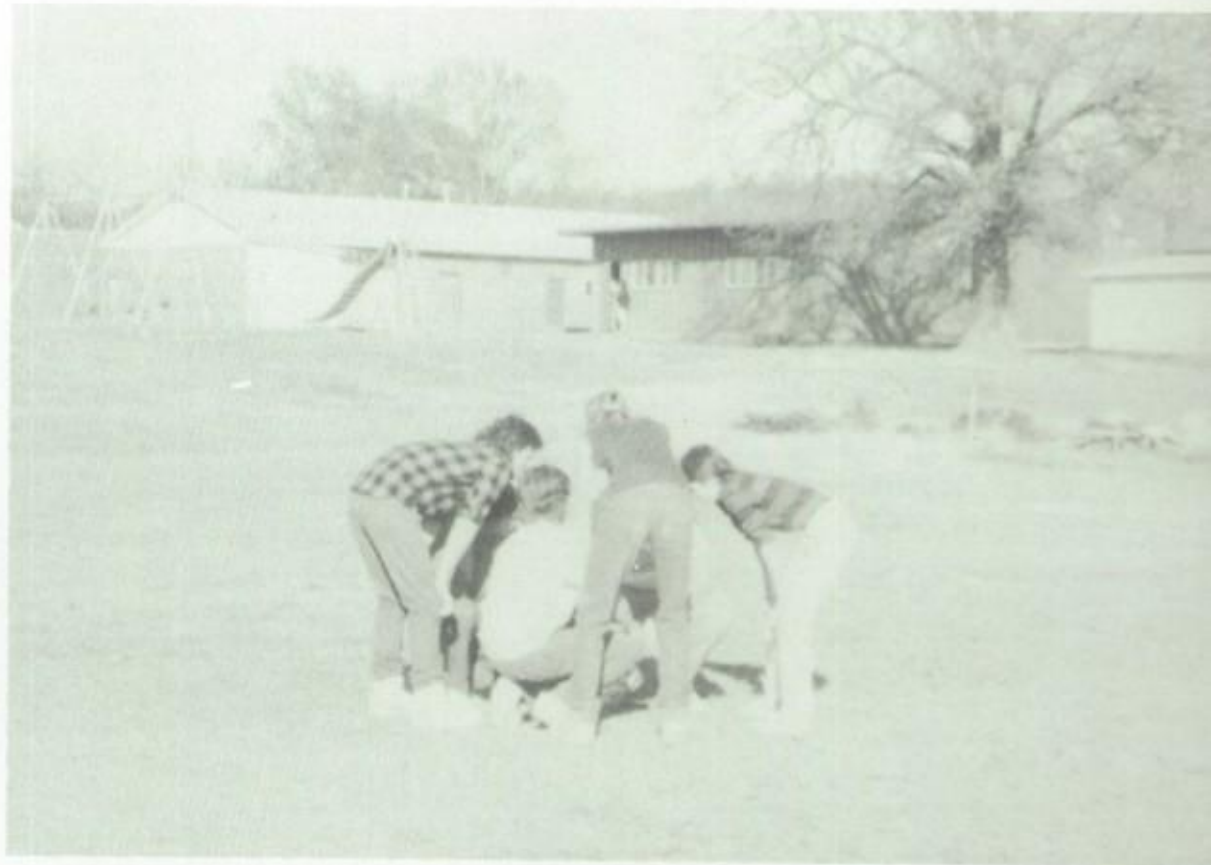
This year the school has decided to expose an overachiever who not only obtains good grades but also participates in extra curricular activities. This year the person who best fits this position is Jason Needham. While obtaining good grades he is also involved in Gifted and Talented, works with programs on his home computer, he also plays football and basketball. Jason likes to do his homework and to play games on his home computer. In his spare time, Jason likes to watch T.V. and to play basketball. In the Gifted and Talented program Jason participates in art, writes journals, and other hobbies. After high school Jason would like to attend college to play basketball then to become a basketball coach.

Jason Needham is hard at work.

The Cub Scouts pose for a quick shot.

The Cub Scouts of America is an organization for young boys. Not only do they participate in activities within the pact but also participate in beneficial services for the community. They also sponsor and participate in the annual "Soap Box Derby." The active members are: Mark Brown, Jason Kramer, John Dale, Jacob Tulous, Neil Moudy, Jason Salazar, Wesley Shote, Ricky Armstrong, Rusty Alan, Jeremy Box, Jody Box, Donny Duvall, John David Priutt, Wesley Duvall, Chad Grunder, Robby Priutt, Stephen Downum Jr., Spenser Downum, Matt Lee, and their leaders, Steve and Vicki Downum.

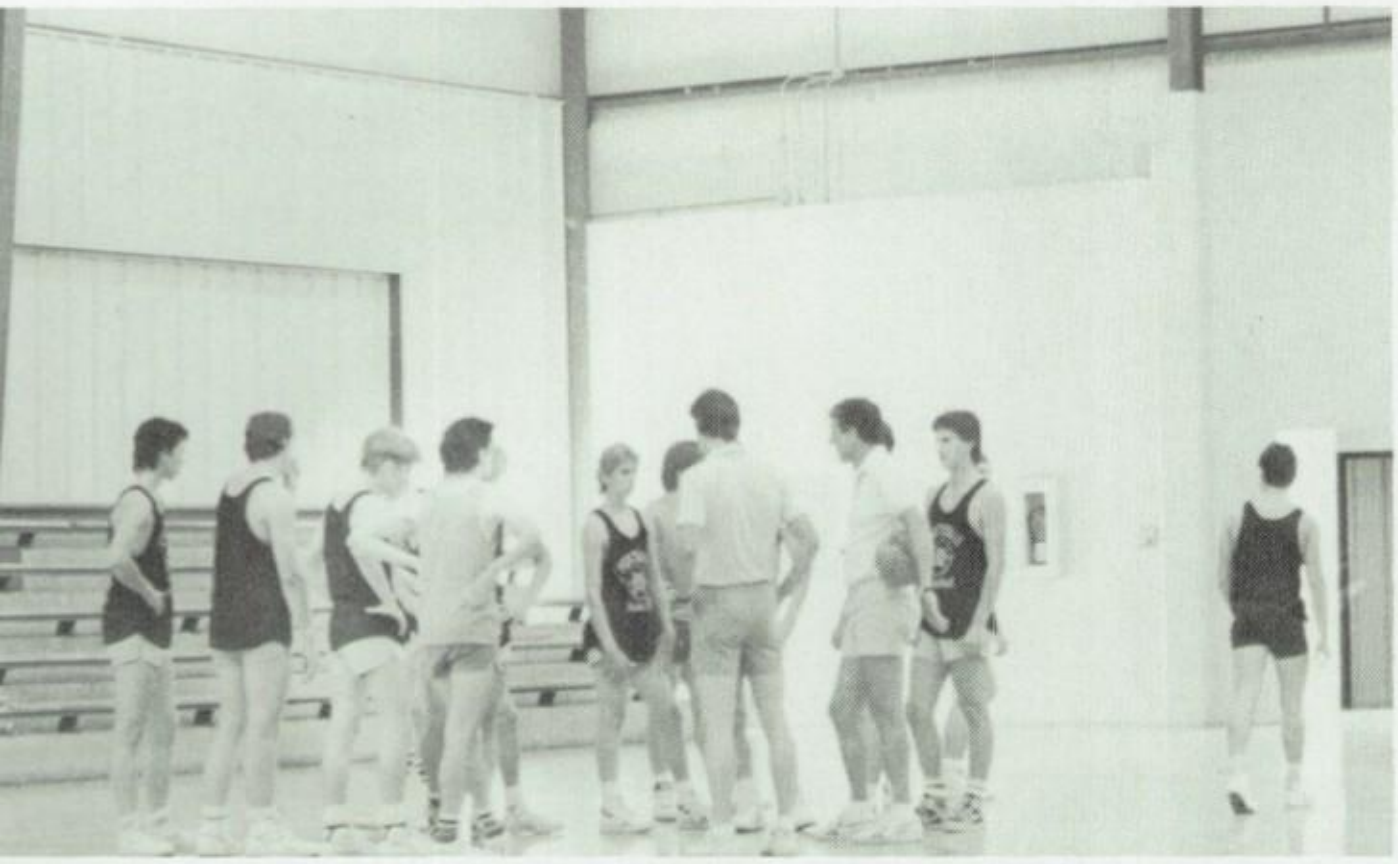
Physical Education



The guys plan their next move.

David Hodges makes a break with the ball at the FFA-FHA picnic.

Physical Education is a major part of our school. During this time, we can relieve our tensions by playing our favorite sports like football, basketball, and of course tennis. In physical education, we learn many things like for instance self discipline. Self discipline plays a major role in sports which teaches us good sportsmanship that is needed by all of us to enjoy the sport. Everybody likes to have a good time during physical education. Physical education is good exercise for everyone!



Conference time with the team.

Going for a lay-up.

Mike Creekmore watches Stephen Storment pass the football.

Sixth Grade Band

You Have To Start Sometime

A lot of hard work and practice goes into being a band member. You must sacrifice free time and be willing to accept criticism. Sixth grade band sponsors a Christmas Benefit concert for the Music Department each year. And in the Spring they have a Spring Concert.

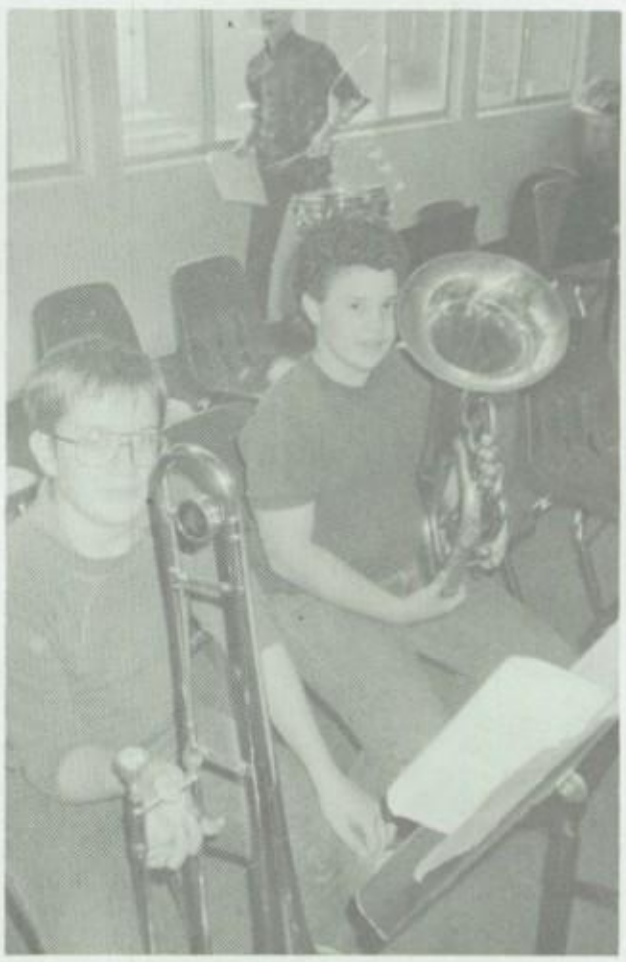
Mr. Loudermilk helps **Troy Wooten** in Fifth Grade music class.

These fifth graders look real enthused to be in music class.

Trischia Ferguson and **Lea Tucker** get ready fo a hard day of practice in band.

son Salazar, Lea Tucker, Trischia Ferguson, Jennifer King, Carrie Shoop, Monica Dickerson, Joey mp, Stephen Downum, Shelly Keith, Darrel Dobbs, Bobbie Taylor, Terry Bartlett, Adam Sweeney, nny Freeman, Glenn Shoop, and Mr. Loudermilk

Ben Rutter stands ready to play the drums in band. Adam Sweeney and Danny Freeman are ready to jam.



Joey Kemp plays a solo for his classmates. Carrie Shoop tries to hide behind her clarinet.

What Really Goes On In

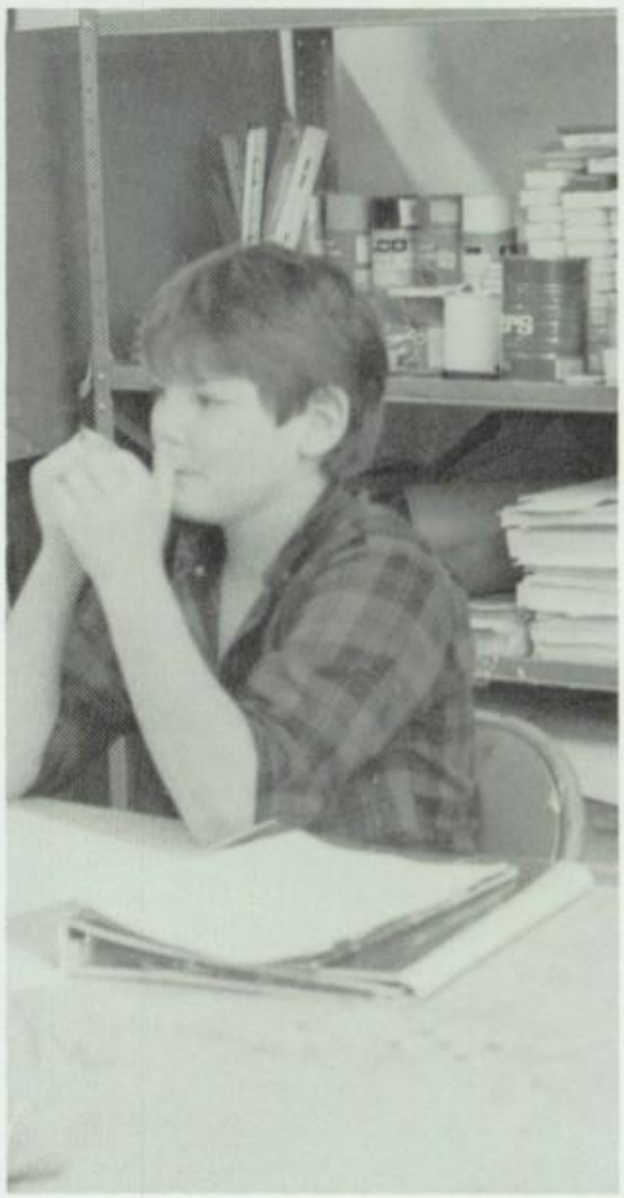
Gifted / Talented

Gifted and Talented class does many different types of projects. They do creative projects, divergent thinking, G/T-Gazette, role playing, and much more.

To be able to enter the Gifted and Talented program you must first take a MAT 6 test and you must have an achievement score and a reading score above a certain score, and a teacher or parent recommendation.

Jamie Jackson is really glad to be in Gifted and Talented class. These students are working on Christmas centerpieces. Jody Box is working on his special project for Gifted and Talented. While Chris Gray turns in his report.

Donnie Duvall is caught in the act of thinking what to write next. **Jonathan Smith** bends to pick up a pine cone to finish his project.



Jess Hays ask **Mrs. Jones** for an idea to make his report sound better. **Jason Stark** stops writing to rest his brain.

Faculty

The Faculty is a very important part of Pottsville School. Think of all the responsibility they have that keeps Pottsville going. Think of all the time they spend outside the classrooms planning schedules, grading papers and sponsoring clubs.

We have a great group of Teachers here at Pottsville. They do their best to help us get ready for college and the world outside of school.

"Special is defined by Webster's Dictionary as meaning "distinctive, unique, or unusual." All these words describe our school at one time or another: Mr. Yeager's "Counselor of the Year" distinction; the unusual success of **Randall Ford, Kevin Hogan,** and **Tim Gray** in the *Gazette's* Stock Market Game; and the uniqueness of all PHS students that sets them apart from all others. But most of all, the word special means exceptional, and exceptional accurately describes PHS as a whole. After all, if PHS isn't special, then who is?

Mike,
You're a
really cool
guy that I've
enjoyed
going to
school with.
It's hard
to believe
you'll be

year. Maybe
I'll see
ya in Cali
this summer.
Good luck
in the Rock-n-

even though
I'm sure
you won't
need it. Don't
forget me when
you're famous.
Love ya,
Christy

ISN'T P.H.S. Special

The little things in life most often are the most cherished. A smile on a student's face when they do well on a test or complete a major obstacle in life is noticed by a teacher, and a little warm feeling is felt in a heart.

Pottsville is a special place. The community, students, school, and faculty make it that way. With a continued good attitude and perseverance it will stay that way-POTTSVILLE IS SPECIAL!

Mike, Well, dude this is it! It's really hard to believe we'll graduating! I'm really glad that we've remained friends even after what happened in the past! I know you will find someone that will make you happy + treat you right! You have a great future ahead and don't take less than the Best! Come to my wedding in July! Thanx for being my friend!

Mike,
Well, we're finally graduating. I can't believe it. I haven't really got to know you til this year. I'm glad that I did. You're a very talented person. You write very good songs. I'm really going to miss you when you're gone. I wish you the best of luck in the future. Don't forget me, especially when you get gold records. Keep in touch. Call me anytime you're a friend 968-3[illegible]. I'll miss you! Love ya,
Stephanie Dauf

Michael,

Hey honey-bunny! How's it going? Well I'm not to sure what to write, cause I'm kindof mad right now!

All I can say is thanks for all the "good times." You've made a **big** change in my life. I really appreciate you.

Michael there just aren't any words to express how I feel about you. We've been through alot together and have become very close. I wouldn't change anything for the world.

Thanks for coming into my life. I do love you. You very ; very special. Don't ever change.

I'm gonna miss you when you go back to Cali. Probably more than anyone. But we will see each other again. I guarantee it!

I hope you don't ever forget me or any of our parties. You'll have to show me how they party in California sometime.

Michael. I hope you acheive all the goals you set. I somehow know you will. Don't give up. That's what a wise person told me once. And it was you!

Don't let the assholes get you down!

I love you! friends forever

Samantha Aleen Bratton SR. '88

Party. have fun. enjoy sex and take drugs! But don't get AIDS. Ha! Ha!

Mike, it has been a pleasure having you in Art class. You have a special talent and there are not a lot of people who are artistically inclined in both music and art. I hope you do something with your talent. Good luck and I hope all your dreams come true. I will always remember your friendship in return. Keep up the fine work you are doing. Miss Jones 1988

Mike,

Hey dude! It has been a blast and a half going to this hell-hole with you. I'm glad it's finally over. I'm glad that we got to know each other. You're one of a kind, which kind? I don't know! Ha You are a really sweet person and I'm gonna be sad for this all to end, but I guess that's life. No matter where you go or what you do just remember I'll always be there to listen. You better keep in touch, even when you become a big ZZ Top star! I want free tickets to your concert! Ha Call me sometime, get everything you want out of life.
